

Attorney Docket No. 71609 US02  
PATENT

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re Application of:

McLaughlin et al.

Confirmation No.: 8972

10/672,825

Group Art Unit: 3728

Filed: September 26, 2003

Examiner: David Fidei

For: PACKAGES, PACKAGING SYSTEMS, METHODS FOR PACKAGING  
AND APPARATUS FOR PACKAGING

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**TRANSMITTAL OF INFORMATION DISCLOSURE STATEMENT**  
**UNDER 37 CFR 1.97(d)**

In accordance with 37 CFR 1.56, the documents listed on the attached Information Disclosure Statement by Applicant are being brought to the attention of the Examiner for consideration in connection with the examination of the above-identified patent application. Copies of the cited non-patent literature documents are enclosed.

This information is being submitted subsequent to the mailing of a final action or the mailing of a notice of allowance but before payment of the issue fee.

Applicants bring to the Examiner's attention certain facts regarding a shipment of several bales to a customer of the assignee of the present invention, Eastman Chemical Co. The shipment of the bales occurred in 1998, being sent in a sealed container to the customer for evaluation purposes under the terms of a confidentiality agreement. The event does not constitute cognizable prior art. The bales were not placed in public view during their shipment and were confidentially handled and evaluated at their destination pursuant to the confidentiality agreement. Moreover, to the best of Applicants' knowledge, the transaction was not structured in such a way that the customer could have made it into a binding contract by simple acceptance. *Group One, Ltd. v. Hallmark Cards, Inc.*, 254 F.3d 1041, 1048 (Fed. Cir. 2001). Therefore, applicants believe that the shipment and evaluation do not constitute a public use or an offer for sale.

05/01/2007 JADDO1 00000011 10572825  
01 FC:1866 180.00 0P

Moreover, the bale packaging in question did not have an evacuator and the process of preparing the bales did not comprise the step of evacuating the bale under vacuum. For at least these reasons, the claimed bales and processes of making are not anticipated. The claimed inventions would not have been obvious either. Under the provisions of M.P.E.P. §706.02(I)(2), Applicants' undersigned representative of record makes a Statement of Common Ownership, indicating that this application, U. S. Patent Application No. 10/672,825, filed on September 26, 2003, in the name of McLaughlin et al., and the invention related to the aforementioned bale packaging were, at the time the invention of this application was made, both owned by the same parent company, Eastman Chemical Co., or subject to an obligation of assignment to Eastman Chemical Co. As a result, the bale packaging in question cannot be used for obviousness purposes against the claims of the present application pursuant to 35 U.S.C. § 103 (c).

Applicants also inform the Examiner that in November 2003 a vacuum packaged bale was displayed at a trade show in Barcelona, Spain. The bale was shipped overseas in a closed crate. The bale is not prior art because it was displayed outside the United States. In addition, a pamphlet was made available at the November 2003 trade show, which has been submitted herewith.

Applicants are also submitting an English-language translation of JP-06-238839 A and a copy of standard method ISO 527-3, both of which have been made of record in an opposition proceeding against European Patent No. EP 1 497 186 B1, in the European Patent Office.

If the Examiner would like further information concerning the discussed events, the bales, or pamphlets, he is invited to so inform the undersigned. Applicants include in the attached PTO/SB/08 form the relevant facts described above so that the Examiner can initial the box next to them indicating these facts have been considered in the examination of this application.
